

NANO STAIN TERMINATOR

Nano finish to fiber technology, provides a molecular shield around the fibers to protect against oil, water based stains, dust and soil. Nano stain is durable, easy to clean, comfortable and green.

Culp's Nano Stain Terminator fabric protector is invisible and does not change the texture or original look and feel of fabric. While forming a molecular shield around the fibers, Nano Stain Terminator guards against oil and water based stains, dust and soil.

BENEFITS OF NANO STAIN TERMINATOR:

- Protects each fiber with an invisible barrier
- Quick and easy spill cleanup
- Eliminates splashes, spills and permanent stains
- Does not change the feel, color or breathability
- Undetected by sight, smell and touch
- PFOA level below detectable limit

CLEAN
