

SANITIZED

Sanitized® protective finish inhibits bacteria growth and permanently prevents the undesired growth of microbes. Sanitized® products make it impossible for uninvited microbes to ingest nourishment from their surroundings, prohibiting their activity, growth and reproduction.

The combination of carefully selected and safe active ingredients guarantees that the desired effect is safe to the consumer and the environment.

Sanitized®:

- Offers maximum wear, comfort and well-being
- Provides a cozy atmosphere in homes
- Ensures lasting protection under the toughest conditions
- Maintains functional and hygienic properties in all industrial fields
- Provides an antibacterial protection for all kinds of materials
